SUMMARY

I am a self-taught programmer fueled by passion and driven by curiosity. A fast-learning and an adaptive personality powers me to grasp new things quickly and easily. I believe in being a pillar for my team whether its my technical group and don't hesitate in keeping myself upfront in taking initiatives. I am perseverant and patient specially at moments like debugging. A corporate exposure in the cyber world is what I desire to contribute towards growth within both myself and the organization.

EDUCATION

MASTER OF ARTIFICIAL INTELLIGENCE
Royal Melbourne Institute of Technology | N/A | Melbourne, VIC | Mar 2021 - Present

BACHELOR IN SCIENCE (HONS) - COMPUTER SCIENCE

PROJECTS

THE PORTFOLIO

Sri Guru Gobind Singh College of Commerce | New Delhi | Dec 2020 - Dec 2020

My reflection on the internet would look something like this. This website gives you an amazing view of me and my work. With recordings to codes, none of it is hidden as I know the importance of a good presentation. All projects that are left to be mentioned are framed there. And you can find all of that at www.rrgoyal.me

ERROR ASSISTANT

Black Console Technologies | New Delhi | Aug 2020 - Sept 2020

As a beginner , you do not need to struggle with errors. Just feed this project with a screenshot of the error and it will provide you with a video solution for the same. Based on python, with data storage in mongoDB and searching powered by elasticsearch, this is surely a great walkthrough for newbies.

YOURBOOKROBOT

Sri Guru Gobind Singh College of Commerce, University of Delhi | Pitampura, New Delhi-110034 | Jul 2019 - Aug 2019

A telegram based chatbot meant specially for users who want to share their books with each other. The users are connected with each other based on their location and the bot keeps an update of when they successfully complete the process.

@YourBookRobot in Telegram App
